

Photographic and Recorded Images

Safe and Responsible Use Agreement

Our National Governing Body, England Netball, is committed to providing a safe environment for young people. Essential to this commitment is to ensure that all necessary steps are taken to protect young people from the inappropriate use of their images in resources and media publications, on the Internet and elsewhere. Photographic and recorded images can be used as a means of identifying young people if accompanied by personal information. This has the potential to make a young person vulnerable to individuals seeking to “groom” young people for abuse.

England Netball has published Guidance on this issue and Yeovil Netball Club understands the importance of this issue and is committed to providing a safe environment for all club members, especially our young members, to participate in netball.

Yeovil Netball Club does not wish to prevent club members, parents, carers or other spectators being able to take legitimate photographs or recorded images at club matches or social events. However, we expect all club members, parents and carers:

- To ensure any photographs or recorded images taken at a club event are only used in an appropriate manner.
- If you wish to take photographs or record images at a senior club match, please speak to the team captain on arrival at the event so they can seek the consent of the other team to the taking of such images.
- If you wish to take photographs or record images at a junior club match/tournament, please speak to the club coach on arrival at the event to seek consent.
- If using photographs or recorded images that are in any way connected with the club, whether on any form of social media or otherwise, to never tag or identify any club member, or give out personal details that may compromise or put at risk the personal safety of you or any other club member.
- To take care and act responsibly when taking photographs and recording images at club events, including social events, and considering carefully whether it is appropriate to share that image/recording via social media.
- To act immediately and report to the team captain/coach there on the day any concerns you may have regarding any inappropriate use of photographic equipment at a senior club match or junior club match/tournament.
- To report any concerns you may have regarding inappropriate use of photographic images/recordings to one of our club Safeguarding Officers or the Chair of either the Senior or Junior section of our club.
